<b>Description</b>		
0.9.1~pre version doesn't save qgis window size when you quit the program and reopen it.		

#### History

##### #1 - 2008-03-17 11:53 AM - cdavilam -

Also when you have QGIS window maximized and use "Toggle full screen mode", when you abandon full screen mode, window size goes to customized size instead of maximized.

Checked with commit:44cc1223 (SVN r8224) compiled and running against Qt 4.3.4

- *Resolution set to fixed*

- *Status changed from Open to Closed*

Fixed in commit:8449c221 (SVN r9146). The original issue has been resolved for some time. The toggle full screen mode thing is also fixed (via a work-around for Qt behaviour)
