

QGIS Application - Bug report #8866

qgis composer elements' frame thickness reverts to 0.00 when (re)loading projects

2013-10-16 02:10 AM - Mathieu Pellerin - nIRV

Status: Closed	
Priority: Normal	
Assignee:	
Category: Map Composer/Printing	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied: No	Resolution:
Crashes QGIS or corrupts data: No	Copied to github as #: 17546
Description	
Steps to reproduce: <ol style="list-style-type: none">1. Create a new project2. Create a new composer sheet3. Add a legend item4. Activate the [x] Frame and set the thickness value to 3.005. Close the composer sheet window6. Save the new project (any name, anywhere)7. Load the project you just saved (quickly accessed via open recent > sub menu)8. Re-open the composer sheet, and notice how the legend item frame revert/reset to 0.00	
That's a regression affecting QGIS master (2.1).
