QGIS Application - Bug report #9057
label background with offset value misplaced when exporting qgis composer to image

2013-11-12 06:47 PM - Mathieu Pellerin - nIRV

Status:	Closed			
Priority:	High			
Assignee:	Larry Shaffer			
Category:	Labelling			
Affected QGIS version:	2.0.1	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**		
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	17705	

Description

Steps to reproduce:

1. Open the attached project

2. Open the label property of the vector layer, go in the background section, and notice the offset Y value is set to 1

3. Close the label property, and open 'Composer 1'

4. Export the composer to an image

5. Open the image to witness the label background wrongly placed way below the label

I'm also attaching a qgis main canvas vs exported screenshot, which shows the good (saveas_maincanvas.jpg) vs bad (exported_composer.jpg) placement.

Associated revisions

Revision 7e33fdec - 2014-02-22 06:47 AM - Larry Shaffer

Fix #9057, offset value misplaced when exporting composer to image

- Add unit test and control images
