QGIS Application - Bug report #9153
geometryless tables gain a visibility checkbox in the TOC when inside a group

2013-12-02 02:46 PM - Giovanni Manghi

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	GUI			
Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**	fixed/implemented	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	17786	

Description

Add a geometryless table in a group. The table is given its special icon. Now uncheck and then check the group. The table will "gain" a visibility checkbox that does not make much sense. See attached screenshots.

History

#1 - 2013-12-03 06:43 AM - Denis Rouzaud

I asked a proposal to Martin Dobias to clean the legend code, API and UI.

If everything goes well, project should start in january.

I don't mean this bug should not be fixed in the mean time, but just to say some refactoring work will start soon.

#2 - 2014-06-12 04:37 PM - Giovanni Manghi

- Resolution set to fixed/implemented

- Status changed from Open to Closed
