QGIS Application - Bug report #9165
curved labels: words printed one above the other
2013-12-05 01:38 AM - Denis Rouzaud

Status:	Closed			
Priority:	High			
Assignee:				
Category:	Labelling			
Affected QGIS version:	2.0.1		**Regression?:**	No
Operating System:			**Easy fix?:**	No
Pull Request or Patch supplied:	No		**Resolution:**	not reproducable
Crashes QGIS or corrupts data:	No		**Copied to github as #:**	17797

Description

When using curved labels on lines, labels are displayed correctly on screen but printed one above the other.
Weird....

I just tested this and I cannot reproduce this error. Denis - can you confirm that this error still exists in QGIS master? If it does - is it tied to a specific font?
Did you try another font?
