

QGIS Application - Bug report #9191
"Ok" ungreyed out when no URL entered (WMS/WFS/WCS dialogs)

2013-12-11 04:11 AM - Jonathan Moules

Status:	Closed	
Priority:	Normal	
Assignee:	Alvaro Huarte	
Category:		
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	Yes	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 17819
Description 1) "New" WMS/WFS/WCS connection 2) Only enter a "Name" 3) Can now press "Ok" - but the URL should be mandatory as it's not going to work without it. === Also, when I then try and connect, rather than giving me an applicable error about not having filled in the URL, QGIS tries appending the GetCapabilities parameters to the blank URL and then gives me an error saying "Path is a directory", which while technically true, isn't useful to the user.		

History

#1 - 2013-12-15 02:44 PM - Alvaro Huarte

- Assignee set to Alvaro Huarte

#2 - 2013-12-15 06:10 PM - Alvaro Huarte

- Pull Request or Patch supplied changed from No to Yes
- Resolution set to fixed/implemented
- % Done changed from 0 to 100

Done (This PR also fixes #9190):
