#### Description

### Context: QGIS - Standalone - Installer

QGIS-Version 2.0.1-Dufour QGIS-Codeversion d94c044  
Kompiliert gegen Qt 4.8.5 Laufendes Qt 4.8.5  
Kompiliert mit GDAL/OGR 1.10.0 Lauft mit GDAL/OGR 1.10.1  
Kompiliert mit GEOS 3.4.2-CAPI-1.8.2 Lauft mit GEOS 3.4.2-CAPI-1.8.2 r3921  
PostgreSQL-Client-Version 9.2.4 SpatiaLite-Version 4.1.1  
QWT-Version 5.2.3 PROJ.4-Version 480  
QScintilla2-Version 2.7.2

### Bug

On Windows 32 bit I am using Qwt5 and it works:  
`from PyQt4.Qwt5 import *`

**On Windows 64 bit it's not possible** to import Qwt5 in any way even though the following files are in the installation:

```
.\QGIS Dufour\apps\Python27\site-packages\Qwt5
.\QGIS Dufour\apps\Python27\Lib\site-packages\Qwt.pyd
.\QGIS Dufour\bin\qwt5.dll
.\QGIS Dufour\apps\Python27\site-packages\Qwt5\*
```

### Workaround

After moving the following files from

```
.\QGIS Dufour\apps\Python27\Lib\site-packages\ to
.\QGIS Dufour\apps\Python27\Lib\site-packages\PyQt4\Qwt5
```

it works:

```
init.py, _iqt.pyd, anynumpy.py, grace.py, ipy_user_conf.py, iqt.py, pythonrc.py, qplt.py, Qwt.pyd
```

### History

#1 - 2014-01-11 08:14 AM - Jurgen Fischer

Are you using the 64bit or the 32bit installer on Windows 64bit?

#2 - 2014-01-11 10:03 AM - Giovanni Manghi

- Status changed from Open to Feedback

#3 - 2014-01-11 10:39 AM - Jurgen Fischer

I suppose the 64bit installer. It's fixed in OSGeo4W now.

**#4 - 2014-01-11 12:42 PM - Holger Bischooping**

Yes. QGIS-OSGeo4W-2.0.1-3-Setup-x86\_64.exe.

Thanks a lot

Huh? That's unchanged.

**#6 - 2014-01-12 12:04 AM - Holger Bischooping**

You have fixed the problem in OSGeo4W. So i assume the solution will also be available in the next standalone QGIS Installer.

**#7 - 2014-02-11 12:22 AM - Jürgen Fischer**

- Resolution set to fixed/implemented

- Status changed from Feedback to Closed
