

QGIS Application - Feature request #9327

Add warning for topological errors

2014-01-13 10:53 PM - Paolo Cavallini

Status:	Closed	Resolution: fixed/implemented Copied to github as #: 17934
Priority:	Normal	
Assignee:		
Category:	Processing/QGIS	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description In case of layers with topological errors, analyses fail, and the user has no clue about the reasons. I suggest to check & warn the user of topo errors in source layers, and of possible wrong results; maybe this should be optional, as this will slow down the analysis, and may be useless after first cleanup.

#2 - 2017-01-02 05:50 AM - Giovanni Manghi

- Category changed from 44 to Processing/QGIS

#3 - 2017-05-01 12:48 AM - Giovanni Manghi

- Easy fix? set to No

#4 - 2018-03-07 12:30 PM - Paolo Cavallini

- Resolution set to fixed/implemented

- Status changed from Open to Closed

- Description updated

Now a filter for invalid geometries is implemented, with options on how to behave then.
