Pull Request or Patch supplied:	No	**Resolution:**	invalid
Easy fix?:	No	**Copied to github as #:**	17980

Description

Within the QGIS 2.0.1 print composer, there are options to have either a line or cross graticule grid on the map frame but no option for changing the colour of the grid.

For most map production, black is too heavy/strong and greys are preferred as it does not over-power the final product, this is not possible within the current software.

This is currently possible - click the "Line Style" button in the grid properties.

#2 - 2014-01-20 01:02 PM - Nicholas Duggan

Agreed, please remove

#3 - 2014-01-20 01:33 PM - Giovanni Manghi

- Resolution set to invalid
