QGIS Application - Bug report #941
Error Msg:The selected paper size does not match the composition size

2008-02-07 02:33 PM - xnav -

Status:	Closed			
Priority:	Low			
Assignee:	nobody -			
Category:				
Affected QGIS version:		**Regression?:**	No	
Operating System:	OS X	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	fixed	
Crashes QGIS or corrupts data:		**Copied to github as #:**	11000	

Description

Whenever I try to print or preview from composer, I get the error message in the title of this ticket. I get the message regardless of the paper size I specify under the General tab of composer, and even if I haven't included any elements in the composition. If I choose to ignore the message and continue to print, part of the composition is off the paper even though all looked good on the Composer window. I also made sure the selected paper and orientation agreed with the default for the printer. See forum posts:

0.10.0 has not fixed this.

#2 - 2008-08-26 12:02 AM - Marco Hugentobler

- Resolution set to fixed

- Status changed from Open to Closed

This should be fixed with the merge of the printing branch. Make sure you select the correct page format in the printer dialog.

Marco
