| Status:   | Closed          |                              |
| Priority:   | Normal          |                              |
| Assignee:   |                 |                              |
| Category:   | Processing/QGIS |                              |
| Affected QGIS version:  | 2.0.1           | Regression?:                 |
| Operating System:   |                 | Easy fix?:                   |
| Pull Request or Patch supplied:   |                 | Resolution:                  |
| Crashes QGIS or corrupts data:  |                 | Copied to github as #: 18026 |
| Description   |                 |                              |
| Maybe I'm missing something, but if we are doing a count the result will always be a whole number so the data type of the new column should be integer. |                 |                              |
