

QGIS Application - Bug report #9457

while in atlas preview mode, newly inserted label item expressions not replaced with values

2014-01-29 07:06 PM - Mathieu Pellerin - nIRV

Status:	Closed	
Priority:	Normal	
Assignee:	Nyall Dawson	
Category:	Map Composer/Printing	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 18049
Description		
Steps to reproduce: <ol style="list-style-type: none">1. Open a project that has an atlas setup2. Open the composer in which you've set up an atlas3. Making sure there's a label with an expression in it4. Enable Preview Atlas5. Notice the label item expression is properly replaced by the expression value(s)6. While in Preview Atlas, add a new label item and set its content to use an expression7. Notice how the new label item shows the expression, not replaced by its value(s)
