

QGIS Application - Feature request #9458

Add more shortcuts buttons to field calculator and expression builder

2014-01-30 04:41 AM - Giovanni Manghi

Status: Open	
Priority: Normal	
Assignee:	
Category: GUI	
Pull Request or Patch Supplied:	Resolution:
Easy fix?: No	Copied to github as #: 18050
Description	
It would be very useful to add more shortcuts buttons (ex: AND/OR/etc.) in the field calculator.

- Target version set to Future Release - Lower Priority

I had the idea to allow those buttons to be customized as quick functions via a context menu in the tree view. This way each user can have their own quick functions.

What do you think?

that would be very nice! I would anyway suggest by default to add at least the "AND" and "OR" operators, as they are anyway often used by the common users.

Thanks!
