<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b>
<b>Easy fix?:</b> No	<b>Copied to github as #:</b> 18115
<b>Description</b>	
<p>I often need to project single coordinate pairs (as in cs2cs or gdaltransform). I cannot find an equivalent in QGIS. To me the obvious place to put this would be to have the option of manual input coordinate entry into the coordinate capture panel.</p>
