<b>Description</b>	
<p>Hi there,</p> <p>When I go to add a new plugin (attached), I get the following message:</p> <p>Error 500: internal application error.</p> <p>An email message with all error details has been sent to our staff that will fix the issue ASAP.</p> <p>I have attached the plugin causing the error. My login is wellsp (the one being used to upload).</p> <p>Please let me know how I can help resolve the issue.</p> <p>Kind regards,</p> <p>Pete</p>

- Assignee set to Alessandro Pasotti

**#2 - 2014-02-10 09:01 AM - Alessandro Pasotti**

- Status changed from Open to In Progress

It's a wierd problem with unicode in the metadata.

While I try to fix it you can just stick to ASCII in metadata.txt

**#3 - 2014-02-10 10:01 AM - Peter Wells**

- Assignee deleted (Alessandro Pasotti)

Hi Alessandro,

Thanks for the insight - I'm going to check for any unicode in there and try uploading once again (in a short while). Thanks for your help - I'll let you know how I get on...

Kind regards,

Pete

**#4 - 2014-02-10 10:02 AM - Peter Wells**

- Assignee set to *Alessandro Pasotti*

Oops - accidentally unassigned you.. there you go.

**#5 - 2014-02-10 10:13 AM - Alessandro Pasotti**

- Status changed from *In Progress* to *Feedback*

I'm updating the server right now, can you please test your original package (that with unicode)?

**#6 - 2014-02-10 01:01 PM - Peter Wells**

- % Done changed from *0* to *100*

- Status changed from *Feedback* to *Closed*

Sweet... just uploaded the original package and it's working as expected - I think we can consider the issue resolved and yourself owed a beer :)

Thanks again for the quick resolution.

Kind regards,

Pete

PS. I have set the issue to 100% and closed - not sure if that's the correct thing to do...
