QGIS Application - Bug report #9541 QGIS package in osgeo4w missing shortcuts

2014-02-11 07:31 AM - Colin Wren

Status: Closed Priority: Normal

Assignee:

Category: Build/Install

Affected QGIS version:2.0.1Regression?:NoOperating System:windowsEasy fix?:No

Pull Request or Patch supplied: Resolution:

Crashes QGIS or corrupts data: Copied to github as #: 18129

Description

Just updated to qgis 2 with osgeo4w. Installer seemed to go fine, but no shortcuts were placed on the desktop or in start menu.

Runs fine from the .bat files in the osgeo4w\\bin

Should this be at OSGeo4W trac for issues? Not sure if this is a QGIS issue.
