

QGIS Application - Bug report #9548

can't load as new layer from sql in dbmanager error

2014-02-12 02:49 PM - Nyall Dawson

Status: Closed	
Priority: Severe/Regression	
Assignee:	
Category: DB Manager	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 18135

Description

Since the recent change in syntax highlighting, it's impossible to retrieve columns or load a layer when "load as new layer" is ticked. The error is:

```
File "C:/OSGeo4W/apps/qgis-dev/./python/plugins/db_manager/dlg_sql_window.py", line 202, in fillColumnCombos
    query = self.getSql()
AttributeError: 'DlgSqlWindow' object has no attribute 'getSql'
```
