

# QGIS Application - Bug report #9557

## OSGeo4W x64 installer missing Windows manifest

2014-02-13 02:46 AM - Jacob Madsen

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b>	
<b>Category:</b> Build/Install	
<b>Affected QGIS version:</b> master	<b>Regression?:</b> No
<b>Operating System:</b>	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b> No	<b>Resolution:</b> up/downstream
<b>Crashes QGIS or corrupts data:</b> No	<b>Copied to github as #:</b> 18143
<b>Description</b>	
<p>The OSGeo4w installer <a href="http://download.osgeo.org/osgeo4w/osgeo4w-setup-x86_64.exe">http://download.osgeo.org/osgeo4w/osgeo4w-setup-x86_64.exe</a> is missing a Windows manifest, which requires you to run it manually as Administrator in Windows. The 32-bit version of the OSGeo4W does not have this issue. This should be an easy fix. You get no UAC prompt with 64-bit version, as you do with the 32-bit version.</p>	

### History

#### #1 - 2014-02-13 11:13 AM - Giovanni Manghi

- Target version set to Version 2.2
- Category changed from Windows Package to Build/Install

#### #2 - 2014-02-13 11:14 AM - Donovan Cameron

- Status changed from Open to Closed
- Target version deleted (Version 2.2)

Hi Jacob. I've closed this ticket for now - please let the OSGeo4W package maintainers know of this issue at <http://trac.osgeo.org/osgeo4w/report/1>

If they re-iterate that this is a QGIS specific issue, than please, feel free to re-open.

#### #3 - 2014-02-13 11:14 AM - Donovan Cameron

- Status changed from Closed to Reopened
- Target version set to Version 2.2

Sorry Giovanni - re-opened.

#### #4 - 2014-02-13 11:34 AM - Jürgen Fischer

- Status changed from Reopened to Closed
- Resolution set to up/downstream

| Sorry Giovanni - re-opened.

Why? This isn't a QGIS problem.

#5 - 2014-02-13 12:26 PM - Jürgen Fischer
