Category:	C++ plugins/Topology checker			
Affected QGIS version:	master	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	
Crashes QGIS or corrupts data:		**Copied to github as #:**	18195

Description

Could the tolerance column be removed from the Topology Checker's 'Topology Rule Settings' table (see attached screen capture) or at least be non-editable? From my testing and code review, the tolerance functionality does not appear to be implemented. It is confusing to have the option both listed and editable.

History

#1 - 2014-02-23 12:26 AM - Giovanni Manghi

- Category set to C++ Plugins

- Affected QGIS version changed from 2.0.1 to master

#2 - 2014-06-18 10:28 AM - Antonio Locandro

Still present in master, I would however like the functionality to be implemented instead of making the tolerance not editable. I have a series of layers in which I have an acceptable tolerance for error, but topology check is giving me all with errors

#3 - 2014-06-29 11:23 AM - Jürgen Fischer

- Category changed from C++ Plugins to C++ plugins/Topology checker

#4 - 2017-05-01 01:08 AM - Giovanni Manghi

- Regression? set to No

- Easy fix? set to No

#5 - 2018-03-26 09:44 PM - Darren Kavanagh

This issue still exists in version 3.

#6 - 2018-03-26 10:37 PM - Darren Kavanagh

Reviewing this bug after a gap of a few years - tolerance is used for two rules that are excluded from compilation but not any of the compiled and available rules. See topolTest.cpp in the repo.

#7 - 2018-03-30 05:02 AM - Nyall Dawson

- % Done changed from 0 to 100

- Status changed from Open to Closed

Applied in changeset commit:qgis|8ebd47bfb2b672dfdcdefa09e2b564688f4707ad.
