

QGIS Application - Bug report #9627

Check QGIS Version shows incorrect information in v2.2.0

2014-02-23 04:31 PM - Andy Bates

<b>Status:</b>	Closed	
<b>Priority:</b>	Low	
<b>Assignee:</b>		
<b>Category:</b>		
<b>Affected QGIS version:</b>	2.0.1	<b>Regression?:</b> No
<b>Operating System:</b>		<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> fixed/implemented
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 18200
<b>Description</b>		
<p>In 2.2.0, when you click on "Help" &gt; "Check QGIS Version" the pop up "QGIS Version Information" window states "You are running a development version of QGIS. Visit <a href="http://download.qgis.org">http://download.qgis.org</a> to get your copy of version 2.0.1. Would you like more information".</p> <p>When you click "OK" it states that the current version is 2.0.1, etc.</p> <p>I guess it just needs updating. There are closed tickets for this on older releases.</p>
