QGIS Application - Bug report #9701
Vector Difference failing to end

2014-03-03 09:23 AM - Andrew Mercer

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Processing/QGIS		
Affected QGIS version:	2.0.1	**Regression?:**	
Operating System:		**Easy fix?:**	
Pull Request or Patch supplied:		**Resolution:**	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	18265

Description

On OSX, using QGIS 2.0.1, "Vector/Geoprocessing Tools/Difference" can't handle large layers properly. Using a point file containing thousands of points as "Input Vector Layer" and a Delaunay triangulation polygon file as "Difference Layer" the function runs,even producing the output correctly but the routine never exits. They only way out is to force quit QGIS.
The progress bar never goes beyond an initial, small fraction.

Hi,

please test qgis 2.2 and/or attach sample data. Cheers!
