Pull Request or Patch supplied:		**Resolution:**	fixed
Easy fix?:	No	**Copied to github as #:**	11051

Description

The user guide (sec. 3.4.6, Status Bar; or perhaps in 7.2, Getting Started [Working with projections]) should mention something about the little red and white 'x' shield that appears on the Projection (projector icon) button. I believe this indicates that On-the-fly projection is off (toggles off and on with changes of OTF in the project properties dialog).

It is a great little indicator, but it took me a while to figure out what it meant.

History

#1 - 2009-02-01 12:04 AM - Otto Dassau

- Resolution set to fixed

- Status changed from Open to Closed

added information about the projector icon change to the manual in svn trunk

#2 - 2009-08-22 01:01 AM - Anonymous

Milestone Version 1.0.1 deleted
