<b>Pull Request or Patch Supplied:</b>	<b>Resolution:</b> fixed/implemented
<b>Easy fix?:</b> No	<b>Copied to github as #:</b> 18439
<b>Description</b>	
<p>The new ability to rotate features in the Map Composer in version 2.2 is great except you cannot enter negative angles. Allowing negative angles would be a good addition because it allows more sensible rotation of text boxes (rotating a text box by 315 degrees is NOT the same as rotating by -45 degrees because in the former example the text ends up upside down).</p>	

### History

- Category set to Map Composer/Printing

I agree that negative rotation is a good feature to have, but why would rotating by -45 degrees result in upside down text? Unless I'm missing something it would result in text from bottom left to top right, the same as a 315 degree rotation.

#### #2 - 2017-05-01 12:47 AM - Giovanni Manghi

- Easy fix? set to No

#### #3 - 2018-01-21 06:08 AM - Nyall Dawson

- Status changed from Open to Closed

Fixed in 3.0

#### #4 - 2018-02-21 09:41 PM - Giovanni Manghi

- Resolution set to fixed/implemented
