<b>Crashes QGIS or corrupts data:</b>	<b>Copied to github as #:</b> 18447
<b>Description</b>	
The polygon SVG fill dialog does not remember the specified fill color. To reproduce: Select a different color, change to a different symbol level and then back --> the fill color will be black again.	

### Associated revisions

Revision c1d3958d - 2014-05-04 01:57 PM - Nyal Dawson

Fix svg fills losing fill and border color and border width settings when loading symbol dialog (fix #9945)
